EXPERIENCE

Western Union

Miami, FL

Manager, Product Management

Jan 2024 – Present

- **Global Digital Platform Optimizations:** Leveraged Amplitude analytics to identify friction points and define a 6-month data-driven roadmap, aligning with Digital Product Leadership and GTM stakeholders; partnered with design, compliance, legal, privacy, authentication, and security to drive improvements, increasing digital conversion by 7pp across iOS, Android, and Web.
- **Platform Rebuild & Global Scale:** Owned product strategy and rebuilt the UX for WU Rewards (Deals & Discounts) platform across iOS, Android, and Web, leading a 10+ person cross-functional squad; launched to 2M+ MAUs in Canada and scaled to 10+ markets, driving a 40% engagement lift and increasing incremental annual revenue from \$1M to \$7M in 12 months.
- **Personalization Platform & Content Ecosystem:** Introduced and scaled a global, CMS-powered personalization platform with dynamic widgets beyond money transfers; evolved targeting from rules-based to ML-driven recommendations, enabling faster experimentation and localization and driving a ~70% average engagement increase across multiple product services worldwide.
- **Product Leadership & Mentorship:** Managed, coached, and developed 4 Product Managers over 12 months, establishing clear ownership models. Enabled them to independently lead strategic initiatives and cross-functional planning.
- **Data-Driven Prioritization:** Identified key kiosk friction points through Quantum Metric session analysis, driving targeted fixes and improving returning-user conversion from 50% to 70%.
- **Product Discovery & User Research:** Led discovery for the send-money funnel, synthesizing user interviews, reviews, competitive analysis, and journey maps to inform roadmap decisions across regional teams.
- **Product Analytics & Experimentation Enablement:** Built and operationalized a comprehensive Amplitude analytics framework from scratch, defining core metrics (DAU, retention, receipt preferences, funnel drop-offs); established a single source for the org and unlocked a scalable A/B testing pipeline via Optimizely, accelerating data-backed decision-making.

Grubrrr (Self-ordering systems & Digital kiosk software solutions startup)

Boca Raton, FL

Technical Product Manager

Sep 2022 – Jan 2024

- **0-1 Product Management:** Led the design (UI - UX) and development from inception to launch of GEM (Grubrrr Event Management): a platform that captures events and monitors system logs. Reduced software debugging costs and timelines, and prioritized system issues to improve overall system health and product growth for clients by over 20%.
- **A/B testing & analysis:** Revamped food & beverage e-commerce funnel on the kiosk, resulting in a 15% increase in conversion rate by implementing A/B test experiments in Optimizely and user feedback analysis.
- **Product Backlog Grooming:** Coordinated with the scrum team to support delivery across all product life cycle phases, including identifying product defects, managing product backlogs, and analyzing KPIs to define strategies for the digital kiosk.
- **Product Requirements:** Analyzed POS APIs & data from customers to create PRDs, technical user stories, and acceptance criteria. Identified opportunities to enhance product quality to improve system performance and the customer experience.

BlackRock

Gurgaon, India

Product Manager (Associate)

Nov 2020 – Apr 2021

Associate Product Manager (Analyst)

Aug 2017 – Oct 2020

- **User Experience (UX):** Identified frictions in the user funnel and worked with different stakeholders to get alignment around the priority of the fixes. User conversion improved by 15% after releasing the fixes, leading to a better overall UX.
- **Product Roadmap:** Worked with the design team to perform usability testing on 15 customers. Gathered their feedback and updated the product roadmap after stakeholder alignment.
- **Cross-functional collaboration:** Collaborated with cross-functional teams like developers, designers, operations teams, and senior leadership to manage and deploy 30+ software releases across 4 applications used to conduct and approve trades.

EDUCATION

Carnegie Mellon University (CMU)

Pittsburgh, PA

Master of Information Systems & Management (STEM Certified, GPA-3.80)

May 2021 – Aug 2022

Manipal Institute of Technology (MIT)

Manipal, KA
